### DISCUSS NEW

HIGH SCHOOL

Principals Realize Necessity of Construction in Near Future.

NOT NEEDED RIGHT AWAY

NOT NEEDED RIGHT AWAY

EIGHTH GRADE GRADUATES CAN BE ACCOMMODATED.

At the meeting yesterday atternoon of the school principals of the city to discuss the disposition of pupils who will be ready to take up High schools would have been been as found that there can be accommodated in the present High school would be necessary to accommodated in the present High school building until the end of the year. Talk solves the High school would be necessary to accommodate the pupils, and it was stated yesterday by good authority that the school building until the end of the year. Talk solves the High school problem buil temporarily, and it was stated yesterday by good authority that the school building until the end of the year. Talk solves the High school problem buil temporarily, and it was stated yesterday by good authority that the school building until the end of the year. Talk solves the High school problem buil temporarily, and it was stated yesterday by good authority that the school building until the end of the year. Talk solves the High school problem buil temporarily, and it was stated yesterday by good authority that the school building until the end of the year. Talk solves the High school problem buil temporarily, and it was stated, yesterday by good authority that the school building until the end of the year. Talk solves the High school would be necessary to accommodate the pupils, and that the matter was being agitused to considerable extent.

The meeting yesterday afternoon, which was been agaitused to considerable extent.

The meeting yesterday afternoon, which was been applied to the problem built of the time and the pupils who will complete the eighth grade work at the end of this present High school building or whether they would have to be given the problem built of the time and the problem built of t

Pupils For High School.

Pupils For High School.

Superintendent Christensen, Principal Eaton of the High school and the principals of all the grade schools where there are eighth grades were present. The principals had been previously notified to ascertain the number of pupils who would be ready for the high school work at the end of the half year, and their reports showed that only about 100, instead of 250 as was at first counted upon, would be ready The other 150, it was reported, were behind in some branch of the school work and they would have to make that up in review before being ready for promotion.

After these reports had been given, Professor Eaton stated that although the High school was already too crowded for the most effective work, that 160 more pupils could be accommodated through the remainder of the school year. He thought it would be impossible, though, to accommodate, in the présent building, the additional number of pupils who will be ready to enter High school next fall.

Will Crowd Building.

Will Crowd Building.

It is estimated by the school authorities now that there will be between 400 and 500 pupils ready to enter High school next September. As there are 100 pupils in the graduating class this year, there will be not less than 1,100 pupils to accommodate next fall. These are also be accommodated in the year.

year, there will be not less than 1,100 pupils to accommodate next fall. These cannot be accommodated in the present building, and a few days ago President Newman of the board of education called upon Principal Eaton at the school to consider this matter.

Mr. Newman, it was learned, was of the opinion that if \$50,006 were spent in alterations and additions to the buildings, the present place could be made into a good High school. The principal of the High school. The principal in the High school. The principal of the High school. The principal into a good High school. The principal into a good High school. The principal into a good High school. The principal into principal into a good High school in this building, even with an addition, would be inadequate to meet the demands of the even-increasing army of pupils more than a short time, it is a question, it is stated, whether anything will be attempted in that line.

"Most of the school board," said Superintendent Christensen yesterday afternoon, "realize, I think, that there will have to be two high schools very soon, and the matter is being agitated more than is supposed, although nothing definite has been done as yet."

Site For New School.

Site For New School.

It was learned yesterday that the site of the Twelfth district school has site of the Twelfth district school has been mentioned as a favorable one for the East Side High school, if such is built. It has been pointed out that the school board owns this property and that it is a good location for a high school, being centrally located in regard to grade schools of the exstern part of the city, and too near them to ever be used as the site of a grade school. This matter has not been brought before the school board as a whole yet, though. It is expected that the board will take some action in regard to the high school problem in a short time.

Mrs. Mortensen Remains at Provo Because of Illness.

Among the other matters that came before the principals' meeting yester-lay was the proposition to extend the last semester one week, making the last semester one week, making the last year end on the 31st of this mouth instead of the 24th, as was scheduled, it was unanimously voted to ask the chool board to allow this lengthening of the semester. This extra week will be taken from the second semester. s making the second half year one

WIFE FAILED TO COME.

Mrs. Mortensen Remains at Provo
Because of Illness.

Peter Mortensen was subjected to bitter disappointment last night. Since Tuesday he had been looking forward to a visit from his wife—the first visit to a visit from his wife—the first visit since his incarceration on the charge of having murdered James R. Hay on of having murdered James R. Hay on Dec. 16. Attorney Stewart, his counsel, went to Provo Tuesday and had a long talk with Mrs. Mortensen. As a result a telephone message orought the information yesterday morning that Mrs. Mortensen would arrive in Salt Lake at 6 o'clock last evening.

Long before Mortensen lolled back, comforted with the hope that he would learn from her own lips just what re-

Long before Mortensen foiled back, comforted with the hope that he would learn from her own lips just what possition h' wife had taken concerning his guilt or innocence, he had planned on a business talk at which he would straighten out his tangled affairs. Then, if he could inspire her confidence, he expected Mrs. Mortensen would go out to the home of his sisterin-ling. The hour arrived and mrs. Mortensen would go out to the home of his sistering him.

The hour arrived and Mrs. Henry Mortensen arrived on the scene to announce that Mrs. Peter Mortensen had sent her word that an attack of headach, to which she is subject, prevented her from making the trip. Mortensen said nothing beyond predicting that his wife would be able to make the trip in a day or two.

The accused man is to be arraigned early next week, probably on Tuesday. The hearing will, by agreement, take place before Justice Nielsen.

Good Food Will do Wonders.

A test was made to see how much a thin person could gain by using Grape-Nuts Breakfast Food. A lady in Warren, O., says: "Some menths ago I was so thin and poorly nourished I thought I would see what effect Grape-Nuts would have on me, so I began taking the food regularly for breakfast and began to greatly improve at once. "I kept track of my weight and found I gained nearly ten pounds in about six weeks, and I have never felt better in my life. Have no more sour stomach, and you may depend I think the food a great success. "My son noticed he could memorize more readily since he began using Grape-Nuts. Please don't publish my name." (Name can be given by Postum Co., Battle Creek, Mich.)

The system will build out the body to its natural size and weight if the stomach can digast the food arreach. met last eve met l sand muscle, but particularly nourishes and builds the brain and sherve centers. This comes from the delicate particles of phosphate of potash which is from certain parts of the field grains and incorporated in the food. Its use will prove the truth of the statement.

DISMAY OF DAVIS

Mrs. Eleanor Cohn, 505 Sixth avenue, New York, writes:

"For bronchial trouble or any other disorders of the throat, lungs or stomach, I believe Peruna is at the head. I caught a heavy cold which developed into bronchitis in its most serious form and upon the testimony of a friend I tried Peruna, although I had but little faith in it, as my experience had been that most patent medicines are worthless. When I began using it I had been centined to my bed for a week, and in a few days I felt my strength returning, the cough left my throat less sensitive, and la two weeks I was entirely well." --- MRS. ELEANOR COHN.

Rock, this county, that the remains of Nicholas Paul, the old man who so mysteriously disappeared on the desert between Black Rock and Snake valley, had was obeen found.

Paul started for Snake valley with a single buggy and horse last summer; soon after the horse returned and a searching party found the buggy forty or fifty miles west from Black Rock, but were unable to find the old man, and the supposition was that he had perished from exposure to the then intense heat of the sun and for the want of water.

There was found in the pockets of his clothes \$170.76; the hat and shoes were missing. He was perhaps two or two and a half miles from where the buggy was found. It is not thought that he met death by any unlawful means; consequently no inquest will be held. Seat of Montana's Government is Made the Derendant.

Butte, Mont., Jan. 8.—A special from Heiena to the Miner says: The National Exchange bank of Providence, R. I., today brought an action in the district court against the city of Helena to recover \$87,822.68, claimed to be due on unpaid warrants issued a number of years ago.
